

EVENTS

With LogBuy Events you'll get a user-friendly and effective tool for creating and managing all company events.

With LogBuy Events you can easily create all your company events online.

When an event is created and promoted online, the employees can sign up directly via an online form to attend the event

An administrator has access to all of the information and automatically receives confirmation via email when an Employee signs up to attend an event.

You can also integrate a payment module, so that payments can be taken online via credit card if required.

BENEFITS

- Greater employee satisfaction
- Company saves time & resource
- Overview of all events
- Flexibility for online payments

Event module

With LogBuy Events module you can create all your company's events online. There are no limits on how many events you can create and you can manage everything via the administration module. You can create and set up the following features:

- Event sign up. Allocate number of tickets per event and per employee.
- Different types of ticket. (e.g Christmas Menu choices, attendance at Company Summer Event)
- Period during which the event will be active.
- Registration form may be adapted / adjusted to each event (e.g. if you only need name and e-mails from the employees to register)
- Completion of required forms.
- Registered events can be copied and republished.
- Possibility of online payment for ordering tickets if required.
- Event attendees receive automatic confirmation by email.
- The administration module also displays full reports (e.g attendee numbers, menu choices etc) for all events.
